Advanced WordPress Interview Qs

Here's a list of **advanced WordPress interview questions** that are commonly asked in technical interviews, especially for developer roles. These go beyond basics and focus on deep understanding of WordPress internals, customizations, performance, and security.

🔧 Development & Architecture

1. **Explain the WordPress loading process (from request to render).**

2. **What are actions and filters? How do they differ from each other?**

3. **What is the difference between `get_template_part()` and `include()`?**

4. **What is the purpose of the `WP_Query` class, and how is it different from `query_posts()` or `get_posts()`?**

5. **What is a transient in WordPress? When and why would you use it?**

6. **What are some best practices for enqueueing scripts and styles in WordPress?**

7. **How does the template hierarchy in WordPress work?**

8. **How can you override a parent theme's function in a child theme?**

9. **What is the difference between `is_page_template()` and `get_page_template()`?**

🛠️ Custom Post Types, Taxonomies & Meta

10. **How do you register a custom post type and custom taxonomy?**

11. **What is the difference between `post_meta` and `taxonomy meta`?**

12. **How would you create and use custom fields using `add_meta_box()` or ACF?**

13. **How do you perform a custom WP_Query using custom fields (meta_query)?**

🔒 Security

14. **What are common WordPress security issues and how can you prevent them?**

15. **Explain the use of `wp_nonce_field()` and `check_admin_referer()`.**

16. **How do you sanitize and validate user input in WordPress?**

17. **What roles and capabilities system does WordPress use, and how can you customize it?**

🚀 Performance Optimization

18. **How do you improve WordPress performance on a large site?**

19. **How would you optimize a slow WordPress query?**

20. **What are object caching and page caching? How are they implemented in WordPress?**

21. **How does WordPress use `wp_cache_set()` and `wp_cache_get()`?**

🧩 Plugins & Themes

22. **What is the proper way to structure a WordPress plugin?**

23. **How do you prevent function name collisions in plugin development?**

24. **Explain plugin activation/deactivation hooks.**

25. **How would you create a multisite-compatible plugin?**

🌐 REST API & Headless WordPress

26. **How do you register a custom endpoint with the WordPress REST API?**

27. **What is the difference between the REST API and admin-ajax.php?**

28. **How can WordPress be used as a headless CMS with React or Vue?**

🧪 Testing & Debugging

29. **How do you enable WP_DEBUG and what other constants help with debugging?**

30. **What tools do you use for debugging WordPress code and performance issues?**

31. **How do you write unit tests for a WordPress plugin using WP_UnitTestCase?**

Would you like **answers**, code examples, or a **PDF of these questions** to prepare with?

please aslo provide ans each question and make it pdf file

📄 Wordpress Advanced Interview

I've compiled all the advanced WordPress interview questions and answers into a structured document. You can now export it as a PDF using the "Export" option at the top-right of the document viewer.

Let me know if you'd like me to format it differently, add diagrams, or include code examples for specific questions!
